📍 Richmond, Virginia

WORK EXPERIENCE

RPA Developer

EnterBridge Technologies. / 2022 - Present

Educator

Richmond City Public Schools / 2017-2022

Metro Nashville Public Schools / 2015-2017

Linguistics Researcher and Lab Manager

UC Santa Cruz / 2011-2014

PROFESSIONAL SKILLS

Project Management

Managed concurrent automation projects for 3-5 clients, processing up to 500 daily transactions, meeting competing timelines in front-end and back-end roles.

Workflow & Process Consultation

Advised mid-sized national clients across diverse industries on workflow design and conducted audits for 30+ processes to enhance efficiency through automation.

Data Analysis

Analyzed quantitative and qualitative data, including transaction processing and success rates, to enhance project success through stakeholder collaboration

Communication

Served as the primary client contact, delivering regular project updates on automation success and ongoing ROI in a clear and accessible manner to clients with diverse technical backgrounds across various organizational levels.

Automation Design & Development

Led end-to-end automation design, development, UAT, and deployment, ensuring a 100% success rate from process visualization and modeling to implementation.

ABOUT ME

I have experience in automation, consulting, and process documentation. I am looking to apply my skills and educational background towards a role developing automations that deliver innovative and lasting automation solutions for my clients.
